CONTENT OF THE WORKSHOP

The EU-funded project Transnational Exchange V implemented by the Caritas Association for the Diocese Augsburg aims at connecting assisted voluntary return and reintegration (AVRR) counsellors on a European level. The great variety of participants including different nationalities, different counselling providers (NGO, IOM and state) as well as sometimes reintegration partners from countries of return enhances a fruitful and beneficial exchange.

The upcoming online workshop will address the challenges of counselling returnees with substance abuse. We want to look into assisted voluntary return with an alcohol addiction or a drug addiction from a medical, organizational and counselling point of view.

You will also have the opportunity to discuss your current and previous cases with your European colleagues.

Amongst the speakers, the following organizations will be represented: Caritas Georgia, IOM Germany, Augsburg Air Ambulance, LogIn, and more.
